Sew a light strip to a medium strip. Cut into 2.5" segments. Join two of the segments to create a 4 patch. Repeat until you have 5 four patches for each block. To make the half square triangles, mark a diagonal line on the wrong side of each 5" x 5" light square. Place one 5 x 5 light square on top of a dark square. Sew 1/4" on either side of the line. Press to set the seams and cut apart on drawn line. Open squares and press toward the dark. Trim to 4.5" square. Repeat until you have 4 half square triangle units for each block. Sew all units together as a nine patch.
